### COMMUNICATION

#### Co-operative Marketing.

Editor Champion Chronicle.

Being greatly interested in the welfare of the farmers of this district, and particularly in the marketing of their livestock, we looked forward with pleasure to seeing the picture shown here called co-operative shipping of livestock. For the picture itself and the way it was shown, we have nothing but praise for it. But oh, the awful items of expense which it ended up with! However, the point we noticed in particular was this, when all these enormous expenses were finally divided up, the individual expense for each shipper was 97¢ per hundred weight.

What we want to draw the farmers' attention to is this that any local cattle buyer would be glad to buy cattle on a one cent margin or ship cattle on a one cent commission basis, the cattle buyer in the first case, taking all risk of grading when the cattle arrived at the market.

It is the last of our thoughts to advise the farmer from organization in any shape or form, but if this example is the best the United Grain Growers can do in co-operative shipping of livestock, we ourselves fail to see where the farmer is to derive any benefit from it.

Thanking You,  
Champion Meat Market

### Governments as Co-operators

Ten or fifteen years ago the popular demand in connection with the solution of large and grave problems affecting economic and marketing conditions in these Western Provinces was for Government ownership and operation. This demand was, perhaps, most insistently urged in connection with interior and terminal grain elevators. Today, no such demand is made, nor is there any expression with regard to grain elevators. Manitoba tried Government ownership and operation of interior elevators and it was far from being a success, either financially or in the character of the service rendered. Saskatchewan, on the other hand, tried the experiment of creating a large co-operative company, composed of the farmers themselves, managed and controlled entirely by farmers, but assisted with the financial backing of the Provincial Government.

From the beginning the Saskatchewan experiment has been an outstanding success. That success has been due to the whole-hearted and loyal manner in which the farmers have supported their own institution—something it was predicted they would not do; it has been brought about by notably careful and efficient management and, lastly, it has been made possible because of the financial resources available on all occasions by the Government, which has loaned its resources and credit of the Province back to the control and management of that enterprise.

Saskatchewan has borrowed millions which have been loaned to the Saskatchewan Co-operative Elevator Co. but that Company has met every obligation of principal and interest as it has become due, and the Provincial treasurer and the Saskatchewan taxpayer has never had to contribute up to a dollar. An additional amount of money, the Government has pledged up to the Provincial credit for other millions by giving guarantees to the Banks for the repayment of loans made direct to the Company. It is an acknowledged fact that without Government backing, the Saskatchewan Co-operative Elevator Co. could never have succeeded in its earlier years, nor indeed, was it able to sustain the fine record which stands to its credit. So successful, indeed, has the experiment proved that the Canadian Co-operative Elevators finally decided to build and co-operate interior elevators have been followed by firms owned and managed by these same companies.

The splendid results achieved by co-operative elevators led to the formation in Saskatchewan of the Province-wide co-operative creamery company, which took over all the Government-owned and operated creameries, and which has established many new ones and enlarged the old ones. It is repeating in its field the success of the co-operative elevator companies, and has established cold storage plants and other subsidiary enterprises.

Next came co-operative stockyards, which are yet in their infancy, but which promise to become an important factor in the development and prosperity of the livestock industry of the West. The co-operative method, which is now recognized as the most feasible and best method of handling the wool crop of the West, and has for many years past demonstrated its practicability by obtaining for the sheepmen of the West a higher price for raw wool than could otherwise have been secured by them.

Co-operation between Government and people has also resulted in Saskatchewan in a very rapid extension of rural telephone lines and facilities throughout the Province, bringing the farms home from immediate and direct communication with market towns, doctors and nurses, and removing to a large degree that isolation from which the farm home suffered in the past and which was one of the chief obstacles to keeping many people on the land.

The successes which stand to the credit of all enterprises in the West have been achieved through the co-operative method. It is a well pronounced public opinion that it was far better not to rely absolutely upon a paternal form of government, but, by co-operation of Government and people, build up a sturdy, self-reliant Province and Dominion. Now when a difficulty presents itself, people do not weakly turn to Governments with demands that they solve the problems for the people, but the people themselves, through their co-operative associations, are proving their ability to solve and overcome their difficulties.

Another valuable feature of this adherence to co-operative principles and methods is found in the practical training being afforded thousands of farmers' sons in the conduct and management of large business enterprises. The value of such training can hardly be over-estimated, and is having its effect in making the sons of farmers more fit to take up the responsibilities of the farm, resulting in the raising of comfortable homes and in making small ways to the farmers in their own operations. Strict business methods are replacing shoddy ones while at the same time the man on the land is kept in close touch with world conditions and markets, and is steadily securing a larger grasp of those economic forces which have a direct bearing on the price of his product and his resultant prosperity.

### Trappers Are Disappointed

Absence of Cold Weather Has Resulted in Holes in Poor Condition.

Word has reached Regina from the north-eastern part of the province that men who went into the historical land of Saskatchewan and Manitoba with the expectation of gathering in pelts, and bringing out a harvest in the spring have returned with their traps

in disgust. The absence of cold weather has resulted in fur-bearing animals neglecting to don their winter coats and hides are in poor condition and in some cases almost hairless. Even Brian, it is reported, has not sought underground quarters and is still basking through the bush hunting berries.

Man was made to mourn and woman was made to see that he does it.

### U. S. Bank Failures

Many Canadians will be surprised to read in connection with two of the latest failures of banks in the United States that the total loss is \$25,000 and of another \$10,000. This capitalization looks extremely small to Canadians who are familiar with banks capitalized at and running into the millions. The American policy has been to encourage the little banks on the theory that a multiplicity of banking institutions would give an elasticity to credit and make it easier to do business.

It is interesting to learn the creation of hundreds of local banks, working on local capital, as contrasted with the Canadian system of great banking institutions, with a central organization and branch in a score of cities and towns in every province. It is true that the number of defrauded scores of these small banks in the United States close their doors. Such a condition cannot but add to the paucity feeling that exists at a time when the country is reeling under depression, unemployment and a consequent saving of capital. From this distance it looks as if a bank with a capitalization of \$10,000 was too much of a gambler's proposition. In good times it is safe to say, right; in hard times it becomes a menace.

Banking is a business that requires stability and the little bank, with no reserve, can hardly guarantee it.—Winnipeg Free Press, Jan. 31, 1921.

### HEART SO BAD WAS NOT SAFE TO LEAVE HER ALONE

Mrs. Eva P. Yatman, Kruegerdorf, Ont., writes—"I feel that I must write and tell you of the great benefit I have received from Royal Yeast Cakes and Nerve Pills. About four years ago I was taken terribly bad with my heart, nerves and fainting spells, and I was unable to work for months. I consulted with two different doctors and seemed to get better, but the trouble would always come back and worse. I would take such terrible medicines, wherever I was, that it was not possible to go to bed at night. At last I decided to resort to proprietary medicines and took several different ones, but they did not help me little benefit from them. One day, noticing the advertisement of Royal Yeast Cakes in the paper, I decided to try them, and before I had taken more than two boxes I was feeling much better, and soon after taking about ten boxes, and am almost cured of those terrible spells. They have been a blessing to me and I advise anyone troubled with their heart to try them, as I am confident they will find relief."

Milburn, Heron, and Nerve Pills are sold at all drug stores. Send direct receipt of price to The T. Milburn Co., Toronto, Ont.

### STORMY WEATHER HARD ON BABY

The stormy, blustery weather which we have during February and March is hard on babies. Weather conditions make it necessary for the mother to keep them in the house, the inhabitants of the globe, every man, woman and child would have \$13.85 according to the figures given by the Savings Bank Association of the State of New York. The same authority shows that the 146,227,000 small savers of the world have on deposit \$231,23,000,000, a sum greater than the combined wealth of Great Britain, Hungary, Turkey and Bulgaria. The average deposit account the world over is \$158.08.

### Home Made Bread

Home made bread is without doubt the cheapest and most healthful food that can be produced for human consumption. It is the most completely digested solid food in the world, over 90% of it being transformed into health and strength. It yields nearly twice as much nourishment as rice or potatoes, and is ten times as nourishing as an equal value of meat. No bread is more truly wholesome or more perfectly satisfactory than that baked at home in which Royal Yeast Cakes are used.

Scientists have discovered a new and truly wonderful use for Royal Yeast Cakes. Physicians are prescribing it with remarkable success for conditions attributed to poor blood conditions. Soak a cake of Royal Yeast for half an hour in a cup of luke-warm water with one tea-spoonful. Then stir well and strain out twice as much liquid as the liquid. BETTER results will be obtained by allowing it to soak over night and drinking half an hour before breakfast. Repeat as often as desired. Send name and address for free booklet entitled "Royal Yeast for Better Health."

## Rebellion Days, 1884-85

By O-GE-MAS-ES (Little Clerk).

(Continued.)

Here was war upon us with a vengeance and an active hostility for a guest, or prisoner—which? On thinking the matter over I told Mr. Indian he must stay at the house until my return, putting him on his honor to take care of my property, and that they both faithfully performed.

Next morning early I started for the Carrot River settlement, and as the ridges were bare of snow, burnt the grass on route, this being the usual practice camp in the spring, as there are no springs to be had here. Thus no old bottom could accumulate, and that is the great danger in a fall-spring, as with several years' collections, both timber and soil will be destroyed, not only naturally, very great injury done to the country.

On reaching the crossing at Carrot River, I found a number of the settlers busily engaged in fortifying a big house. One of them dashed up to me, catching my bridle rein and shouting, "Indians in every bluf!" My reply was to shout to the effect that I had not seen them. A settler gathered round, and certainly the news was bewildering if half of it was true. Indians reported active rebellion on all sides. Much murder and massacre were reported, settlers and others and one wife, half-forsaken.

Fort Carlton was burnt and every settler for many miles round had taken refuge in Prince Albert. They had formed a committee of defense, and a general alarm was given. The committee I went to at once. I related the facts as to the Indian at my house and asked as to what disposition had better be made of him. I also stated if they wished him brought to trial, the preferred method to do it in. The committee retired for a consultation, and I took a look round the premises. A small enclosure of building logs was being placed in position round the house to act as a stockade. The place swarmed with Indians, who were now on stairs in the house were a number of old guns and rifles, all loaded and standing loosely in the cellars. Picking up one, the stock fell off. "Ah," said the Indian who had held the end of the nail. "The nail evidently acting as a key. There was little or no attempt at discipline, and I could by no means consider placing my family here for protection."

I was asked to come in by the committee, and after a consultation, I agreed to go to the Indians and make arrangements for a consultation, and I took a look round the premises. A small enclosure of building logs was being placed in position round the house to act as a stockade. The place swarmed with Indians, who were now on stairs in the house were a number of old guns and rifles, all loaded and standing loosely in the cellars. Picking up one, the stock fell off. "Ah," said the Indian who had held the end of the nail. "The nail evidently acting as a key. There was little or no attempt at discipline, and I could by no means consider placing my family here for protection."

mine's decision was that after carefully considering the question of my captive Indian who had openly declared himself a rebel, that I was to use my own judgment in the matter. I did so, and my opinion was to this fort or he would be liable to be shot. Capt. Myers then kindly informed me the position of second in command, but this I was compelled to decline. When he pressed me for a decision, I gave him several, the principal one being that his fort was not defensible.

There was no water supply, no

latrines, nor lookouts, in fact it was a wooden trap, and would be much easier to defend than to capture.

I was of the opinion that the active part of this war was not against the settler, but against the government.

The captain then asked for supplies

I told him I would be happy to

have in my possession ammunition and food. I had in stock and take his receipts, and this he was quite pleased with.

Before I leave this brief reference to the famous fort at Carrot River, Town of Kain, that south of Fort Carlton, told the ponies were hitched up, and a strong party of heavily armed French half-breeds were just starting to raid this post when news of Middleton's army advanced reached them and the plan was dropped. It is evident that the Indians knew we had a number of Orangemen in the Carrot River company, and those were particularly disliked by them, for in the old H. B. governing days so notorious a name was unknown. In fact, extreme toleration of all forms of religion was an outstanding feature of the province's rule.

I camped at Franklin's that night, two fine Ontario men who, poor devils, were captured by Indians, and a teamster to reach the north of Lac Du Bonnet on a trading expedition, this in 1887-8. I spent the last part of the night in trying to dissuade them from trying, for they were very green as to northern conditions.

They were not to be dissuaded, however,

and the next day they started away in the hills with their cattle, but like myself they concluded victory would rest with our side sooner or later.

I am going to tell you the story of the Bolsheviks Want War

Four Hundred Thousand Effectives

On Various Fighting Fronts of Russia.

Constantinople—Half the Bolshevik forces are grouping for military operations, according to latest information received here, with forty divisions in the Caucasus, on the Volga frontier and twelve divisions on the Russian frontier.

Those on the Polish front are assembling in the regions of Smolensk, Warsaw and Orsha, the latter being a

newly created city.

The Bolshevik forces are estimated to number 600,000 effectives, of which 400,000 are on the various fronts of Russia.

C. N. N. Improvements

Arrangements Made to Move All Freight Trains at Minimum of 30 Miles Per Hour.

Winipeg—Western operating officials of the National Railways concluded their first days' conference with General Manager Warren in Winnipeg and have arranged to implement new plans for improvements.

The feature was the decision to replace those sections where the 60-pound steel remains, with standard 85-pound steel and complete ballasting so that freight trains will run at a minimum of 30 miles.

This will make less equipment necessary, increasing speed and tonnage.

It was reported fifty thousand

more cars of coal were handled last year than in 1910, while the Mc-

Midland's horse work is proceed-

ing. Two thousand feet of the Red Deer bridge on this branch has been completed.

With the improved system and

the C.P.R. working into Denver

there will be more than doubled over other years. Mr. Warren will leave for Vancouver.

He demanded a proper act, properly

enforced, and characterized the

administration of the present act by the Attorney-General as mere canu-

ffing.

R. H. Neelands, Labour member for South Vancouver, remarked that as the province had approved govern-

ment control of the sale of liquor, it was but reasonable that it should go further and take control of the

sale of meat articles, milk, and

other necessities of life.

Japanese Reservoir Revolt.

Tokio—A special dispatch to the

Hiro Shimpou, from Muroran, on the

island of Yezo, says that 1,200 army men have revolted in protest against the attitude of the authorities

with regard to the shooting of Lieut.

W. H. Langdon, of the United States

cruiser Albany, at Vladivostok.

Gets Fifteen Years.

Belgian Mining Company of Hud-

landers, County Liège, has been

sentenced to fifteen years penit-

itute for taking part in an attack upon

the police. Search of his home is

said to have resulted in the discovery

of three revolvers and 78 rounds of ammunition.

Base Milk Products on Butter.

Toronto—Amendments to the

Dairy Standards Act, so that pay-

ments for milk and cream used for

manufacturing purposes shall be on a

bottling basis, were promised by

Colonel Manning Doherty, minister of agriculture, at a meeting of the legislature committee.

Refuse to Hear Mrs. MacSwiney.

Lincoln, Neb.—The Nebraska house

of representatives by a vote of 48 to

41 refused to permit Mrs. Mae

McSwiney, widow of the late Lord

Cork, to speak before the legislature

on the Irish question.

Prince to Your India.

Toronto—The London papers say

it is understood that the Prince of

Wales has planned a tour of India in October or November next.

## Shorter Working Hours in Ontario

Soldier-Labor Member Introduces Bill Which Specifies Maximum Working Time.

Toronto—A bill has been introduced in the direction of establishing an eight-hour day in the province of Ontario. In the legislature, Sergeant-Major J. McNamara, Soldier-Labor-member for Riverville, introduced a bill which will be known as the Maximum Working Day Act, which provides for an eight-hour day, exclusive of the meal hour and for a period of rest of at least eight consecutive hours from the end of work on any day, to the beginning of work on the next day.

Systematic overtime will be consid-

ered illegal, except in cases of necessity,

and in that case, only ten conse-

utive hours shall be worked.

Col. McPherson is the new Minister of Public Works in the Manitoba Government. He is also editor and owner of the Daily Graphic, Portage la Prairie.

China Protests

Chinese Government Banks B.C.

Montreal—Diplomatic protests have

been made by Chinese against British

Columbia regulations prohibiting the

employment of white girls in Chinese

establishments, as a measure offensive

to China. The Canadian government

has called a conference between the

Chinese and the British government.

As an old friend of India, I appeal to you all, British and Indians, to bury along with the dead past the mistakes and misunderstandings of the past; to forgive where you have been wronged, and to join hands and together to realize the hopes that arise from today.

THE CHRONICLE, CHAMPION, ALBERTA

**Local & General**

Any one desiring plain or fancy sewing apply to Mrs. Dan Pierson, Champion.

Miss Marr, of the school staff, spent Monday in Calgary, returning Tuesday morning.

President Wilson states he will veto the Fordney emergency tariff bill if it is passed by the senate.

Alan Lindsay, who has been in charge of the sale at Campbell's Ltd., returned to Calgary on Tuesday.

Mrs. Cecil Matlock, who has been ill in Champion for some time past was able to return home last week.

Two million dollars is to be spent by the Imperial Oil Co. drilling for oil in Alberta during the present year.

Remember the postponed Valentine dance in connection with the Women's Institute takes place on Friday night.

Rochester police made 900 arrests more arrests in intoxication in January 1921, than they did in January, 1920.

Curling was resumed on Tuesday night after an adjournment of a few days due to the chinook and consequent soft ice.

The Alberta legislature is in session. Both Premier Stewart and A. F. Ewing, elected leader of the conservatives, are ill and unable to attend. Hon. C. R. Mitchell is acting premier.

Inspector Liggett spoke very highly of the clean and wholesome appearance of the school where, sitting the board had every reason to be proud of the bright and pleasant quarters in which the teachers and children work.

R. E. Matlock is visiting in Calgary this week.

The village council meets the first Monday in March.

The assessment notices for Champion Consolidated S. D. are now being issued by the Sec-Treas.

Dr. C. E. Bland, of Calgary, will occupy the pulpit in the Union Church on Sunday evening. Don't miss this opportunity.

The residence of Chalmers Matlock had a narrow escape from fire recently, considerable damage having been done before with the assistance of neighbors it was got under control.

C. D. Brooks, who has been at Huntsville and other points in Washington, has purchased a large Buick car and will drive home as soon as the roads will permit.

As a condition of taking up some \$6,000,000 of bonds for North Dakota, Chicago and Minneapolis bankers ask for the elimination of the farmers industrial and the non par value.

Owing to the blizzard which fell on Monday evening the Valentine dance, in connection with the Women's Institute was postponed until Friday night. Mrs. B. Hummel, who was convener on the occasion is getting a double complement of work in consequence.

Returns of immigration to Canada during the calendar year 1920 show that 75,805 immigrants arrived from Great Britain, 48,866 from the United States, and 22,704 from all other countries. The figures for 1919 were: British 57,251; United States, 52,094, and other countries, 8,818.

The truest thing that has been said about the condition of the world today is, that hard work is needed. The hardest thing to do today is to get people to improve conditions.

The Dominion Department of Records is busy just now receiving medals from Britain and shipping these out to various Canadian participants in the Great War. Some 20,000 service medals were received in the last shipment. Only those who have seen service in France are entitled to the medal.

Differences of opinion exist as to the sugar situation between members of the trade in Montreal and New York in New York something like a semi-pile is reported with the foreign of a sugar trust taking sugar, while Montreal dealers state that nothing of this nature has spread, so far, in the Canadian Metropolis.

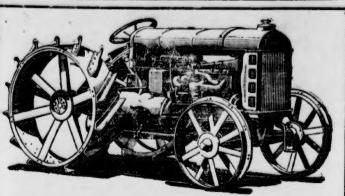

W. C. Hoskins was in Calgary and Oyen last week. He had intended staying several days in the Oyen district, but the natives there had developed a disposition to have a free-for-all with such utter recklessness that W. C. decided he liked the climate here better than that at Oyen, and cut short his visit there.

There is a general feeling that the time chosen for an advance in express rates was ill-advised from every point of view, and adds to the growing feeling that the railroad commission are very near being the property of the corporations they are supposed to control. With prices falling rapidly on practically everything high freight, passenger and express rates are woefully out of place, and the authorizing of such increases does not appear to be absolutely sane.

Mrs. W. K. Anderson left on Wednesday morning for an extended visit at Saskatchewan and Manitoba points.

It is rumored that the final game in the single competition between A. W. Jopling and J. Collins will be played off before spring.

J. H. Matlock had prepared everything for a chicken dinner on a recent Sunday, and the bird he had selected looked awfully nice when it was ready for the oven. While J. H. was figuratively licking his lips in anticipation someone else made the discovery. There was a mighty nice chicken available and removed it elsewhere for consumption. J. H.'s remarks on the occasion would make an interesting phonograph record but for newspaper purposes are best indicated thus: —————— ! —————— ! —————— !

## INTERPROVINCIAL WEED TRAIN

The Provinces of Manitoba, Saskatchewan and Alberta in co-operation with the Canadian Pacific Railway, will operate a train of three cars for six weeks in the southern part of the three provinces.

*The Interprovincial Weed Train Begins February 21 and Ends March 5.*

Two parts will be visited each day as set by the schedule below. All interested in the Control of Weeds, particularly Municipal Officials, Weed Inspectors and Farmers, are invited to attend these discussions.

The train consists of a demonstration car, a lecture car and a display car. The demonstration car will have specimens of growing weeds, descriptive samples of weed seeds and colored charts, etc. The lecture car will be devoted to discussions of Methods for Control of Weeds, and the Administration of the Noxious Weeds Act. The question of Soil Drifting and the Grasshopper and Cutworm Menaces will also be fully discussed. ## \$ DOLLAR DAY IS HERE AGAIN

For Six Years the Dollar has been eclipsed and its purchasing power diminished to the vanishing point. Now that the tide has turned the Dollar is again a big factor with everybody. The Chronicle keeps you advised weekly of dollar-saving opportunities. Are you taking full advantage of them?

Retailers of merchandise all over the country are meeting a difficult situation with a spirit that must appeal to the fair-minded and is deserving of your loyal support.

## CHURCH BULLETIN

On Sunday evening the Union Church pulpit will be occupied by Dr. C. E. Bland of Wesley Church Calgary. This is Dr. Bland's first visit to Champion and is hoped that the people of our community will avail themselves of the opportunity to hear this great and gifted preacher. Special music will be rendered by the choir assisted by Miss Knowles.

The regular preaching service will be held in the Blusson school on Sunday at 2:30 p.m.

Remember the choir practice on Wednesday evening at 8 p.m.

On Friday afternoon at 3:30 the Camp Fire girls will hold their meeting at the home of Mrs. Milford Sisson. All girls twelve and over are cordially invited.

A big time is assured those who can be present at the lantern entertainment on Friday evening at eight o'clock. A splendid programme has been arranged by our Scotch friends Mr. and Mrs. Williamson which will appeal to all admirers of Bonnie Scotland. Photo graphs taken in different parts of Scotland will be shown on the screen representing some of the most beautiful scenery to be found in the land of the thistle. So don't fail to be present on Friday evening at eight o'clock.

F. Jacobson was unable to play his regular game at the rink on Tuesday night, much to general regret, as up to date he stood at the top in the way of regular attendance.
